Remarks: The attached memorandum from Ralph Jones, the Acting Director of SES/State, is self-explanatory. The people in CD/00 who have worked with John on numerous exchanges involving electric power join me in sharing the Department's appreciation not only for this briefing, but for his continuing cooperation and high level support. Perhaps the AD, DAD, Chief, D/R and Chief, R/EP would be interested in seeing this commendation and making it a part of John's personnel file. Please see that he gets my personal thanks.
